#### **Below you will find details of the plans that will be available for you to elect:**

**Life insurance – Protect what you love about your life.** With Life insurance, you can provide the people you love with financial support when you can't be there—and when they need it most. It can help pay their household expenses, pay a significant debt, allows you to leave an inheritance, and helps to cover your funeral expenses or medical bills.

**Accidental Death & Dismemberment (AD&D) insurance—Plan for the unexpected.** Accidental Death & Dismemberment insurance provides an additional payment to your beneficiaries if you die in a covered accident. It may also pay a benefit for accidental injuries that result in loss, like loss of speech, hearing, sight, or loss of limb.

**Accident insurance—Stay on stable financial ground, even when an accident has you off your feet.** An injury as common as a fracture could result in unexpected out-of-pocket costs not covered by your health plan. Accident insurance can help you with your finances if you or a covered person in your family experiences an accident.

**Critical Illness and Cancer insurance—Focus on your health—and less on your finances.** If you are diagnosed with a covered medical condition like a heart attack, stroke or cancer, Critical Illness insurance helps reduce daily stress about money so you can focus on getting better
